

Temporary Lane Closures Expected On Spout Springs Road

June 24, 2013

Temporary lane closures are expected on Spout Springs Road this week as part of a widening project on the South Hall roadway.

Motorists are advised that Wilmer Engineering will be collecting asphalt samples on Spout Springs Road to begin pavement design for the Spout Springs Road Widening Project beginning Tuesday, June 25, 2013 and continuing until Friday, June 28, 2013.

There will be temporary lane closures from Interstate 985 to Thompson Mill Road. Spout Springs Road will remain open to traffic, but motorists may experience delays in the areas of the lane closures.
